

Dear Parents:

During the summer break the average student will lose 25% of the knowledge they gained during the school year. We highly recommend that everyone do enrichment over the summer to keep and maintain their skills in Math and English.

We have offered summer classes for many years and we understand family vacation time and other activities may pull students out of class. We are used to working around missed class time. Please do not let vacation plans keep you from progressing over the summer. We will work with you to make sure you receive all the course material.

If you do not see a class offered that you would like, please feel free to ask. We have tutors available who can work with you.

We are now accepting requests for summer tutoring for all ages/levels: first come, first to get their choice of times.

Please look over the following information on class schedules, course descriptions, and fees. If you have any questions give me a call at 505-4166. You can also email our office at [convenienttutor@gmail.com](mailto:convenienttutor@gmail.com).

Sincerely,

James Foust
